TLE – FCS FOOD SERVICE • GRADE 10

Alcoholic and Non-Alcoholic Beverages

Session 1: What separates one drink from another?

John Brix G. Coronejo
Pre-Service Teacher | Coop. Teacher: Cristy S. Conopio

Warm-Up: RESET THE SET!

1. Clear the table after guests leave
2. Change linens neatly, no crumbs on the floor
3. Place the fresh table setup

Why re-set the dining table promptly and properly?

POV:

You are a barista in a café or a bartender at a local bar.

What will be your signature drink?

What other drinks will you recommend to a customer?

Today You Will...

KNOWLEDGE

Define beverage, alcoholic and non-alcoholic beverage, and tell them apart by ethanol and ABV.

SKILL

Classify everyday and commercial drinks in a collaborative board activity.

ATTITUDE

Listen well, work as a team, and respect age restrictions and health in service.

Unlocking Vocabulary

Beverage

A drink or liquid meant for human consumption that satisfies thirst and holds cultural significance.

Alcoholic Beverage

Contains ethanol (ethyl alcohol) made by fermenting grains, fruits, or sugar. Ethanol is a depressant psychoactive drug.

ABV

Alcohol by Volume: pure alcohol in 100 mL of liquid at 20°C, shown as a % on the label.

Non-Alcoholic Beverage

Minimal to zero alcohol (typically under 0.5% ABV), made for people who avoid alcohol.

Barista = specializes in coffee | *Bartender = mixes and serves drinks, including alcoholic ones*

Master Beverage Taxonomy

BEVERAGES

Non-Alcoholic

- Stimulating
- Refreshing
- Nourishing

Alcoholic

- Fermented
- Distilled

Spot the ABV!

Soda can

0.0% ABV

Non-Alcoholic

Beer bottle

5.0% ABV

Alcoholic

Where is the ABV on a bottle, and why is the label required?

The Great Beverage Sort

4 groups • 10 cards • 5 minutes. Draw a T-chart on manila paper, sort, and be ready to defend one item!

Brewed Coffee

Mineral Water

Draft Beer

Orange Juice

Red Wine

Cola

Milk

Gin

Hot Chocolate

Vodka

Check Your T-Chart

Non-Alcoholic

- Brewed Coffee
- Mineral Water
- Orange Juice
- Cola
- Milk
- Hot Chocolate

Alcoholic

- Draft Beer
- Red Wine
- Gin
- Vodka

Who can sum up the main difference in one clear sentence?

Connect the Dots

Science

Ethanol is a depressant produced when yeast turns sugar into alcohol. It slows the central nervous system.

SDG 12

Responsible consumption: moderation, health awareness, and avoiding substance misuse.

Law & Culture

Why are food establishments strictly prohibited from serving alcohol to minors in the Philippines?

Quick Quiz: ALC or NON?

1. Hot Brewed Arabica Coffee
2. Draft Beer (5% ABV)
3. Sparkling Mineral Water
4. Distilled Vodka
5. Fresh Mango Juice

Use a 1/4 sheet of paper. Write ALC or NON, then swap with your seatmate to check.

Take It Home

1. Inspect 3 drink containers
at home or a sari-sari store. Record brand, alcoholic or non-alcoholic, and % ABV (or 0%).

2. Advance reading
Preview the non-alcoholic subcategories: Stimulating, Refreshing, and Nourishing beverages (Session 2).

Thank you, Grade 10!
