Task Sheet No. 2:
ANNOTATED DAILY LESSON LOG

INSTRUCTION:

Obtain a copy of the Daily Lesson Log (DLL) created by your Cooperating Teacher (CT) for the week's teaching period. Using the DepEd issued Budget of Work (BOW) or Most Essential Learning Competencies (MELC), whichever is applicable, as your reference, analyze and annotate the DLL to determine how the planned lesson aligns with the prescribed competencies, learning outcomes, content, activities, assessment, and time allotment.

Procedures:

1. Request a copy of the Cooperating Teacher's DLL. Take note, you are going to annotate the said copy, and you are not allowed to modify the original content of the DLL.
2. Review the Budget of Work (BOW) or the Most Essential Learning Competencies (MELC). Highlight the competency/topic covered by the DLL.
3. Examine the different components of the DLL, based on the topics discussed in this Module 2.
4. Add brief annotations (handwritten) to the copy of the Cooperating Teacher's DLL. Your annotations should explain your observations about the DLL and its alignment with the Budget of Work (BoW) or Most Essential Learning Competencies (MELCs).
5. Use the guide questions below to help you with your annotations.

Guide Questions:

a. Are the learning competencies, content standards, and performance standards based on the official budget of work or MELCS?

b. Are the activities/strategies and assessment aligned with the objectives for the day?

c. What are the resources, activities, and assessment used by your cooperating teacher to ensure that at the end of session, the students were able to meet the expected performance standards?

d. What are the interventions used by the cooperating teacher to ensure inclusivity was achieved?

Note: The submitted output should be supported by the Bow or MELCs as your attachment.

RUBRIC FOR GRADING:

CRITERIA	EXCELLENT	PROFICIENT	DEVELOPING	BEGINNING
Quality of Annotations **50%**	Annotations are specific, insightful, evidence-based, and clearly explain instructional decisions and observations. ✓	Annotations are clear and relevant but lack depth in some areas.	Annotations are general and provide limited analysis.	Annotations are minimal, unclear, or absent.
Analysis of Teaching-Learning Components **20%**	Critically analyzes objectives, strategies, resources, activities, assessment, and learner engagement with appropriate justification. ✓	Adequately analyzes most components with reasonable justification.	Provides basic analysis of some components with limited justification.	Provides little meaningful analysis.
Completeness, Organization, and Presentation **20%**	The annotations and reflection are complete, well-organized, readable, and professionally presented. ✓	Requirements are complete with minor organizational or presentation issues.	Some requirements are incomplete or presentation needs improvement.	Several requirements are missing or poorly organized.
Timeliness of Submission **10%**	Submitted on or before the deadline. ✓	Submitted within 1 day after the deadline.	Submitted 2–3 days after the deadline.	Submitted more than 3 days after the deadline.

SECOND TRIMESTER DAILY LESSON LOG
SY 2026- 2027

Name of Lesson	**Attributes of a Food Service Attendant, Customer Service, Occupational Health and Safety Standards, and Restaurant Service Area**
Learning Areas	**TLE-FCS Food Service**
Term/Week	**2nd Term/ Week 3** **September 28-October 2, 2026**
Teacher	**CRISTY S. CONOPIO**
Grade level and Section	**Grade 10- ANTHURIUM/ASTER**
No. of Sessions	**Five (5) Sessions**
References *(books, websites, toolkits, etc)*	DepEd MATATAG Curriculum Guide for TLE – Food Service;Budget of Work for Grade 9/Grade 10 – TLE: FCS – Food Service; Food Safety and Sanitation Guides; LCD presentations; Videos and Demonstration Materials.
Declaration of AI use *Cite how AI was used in the formulation of the lesson plan* *See DO 3 s.2026 Annex A*	AI was used to organize the DLL structure, align objectives with the MATATAG Lesson Exemplar, improve wording, and suggest integration opportunities. The teacher reviewed and validated all content before use.
INTENTIONS	Meaningful learning experiences are anchored in how we frame them. Start by deciding what you want learners to master by the end of the lesson – keep it clear and simple Remember: Understanding your learners' evolving context and designing around it ensure that your lessons connect with and are relevant to them
Learning Competency *Write the competency/ies from the curriculum that we are targeting, and the content or performance standards applicable to the sessions*	**Content Standard:**Demonstrate an understanding of the concepts and principles of food and beverage services.. **Performance Standard:** The learners perform basic table setup and sequence of service following the safety precautions. **Learning Competency**: -Recognize the attributes of a food service attendant. -Explain occupational safety and health standards in food service. - Discuss the preparation in the service area.

Aligned with DepED BOW - content and performance standards directly match the prescribed curriculum Guide for TLE-FCS Food Service.

Discrepancy with DepED BOW pacing: competencies on Attendant Attributes belong to BOW week 1; while OHS standards and service area preparation belong to BOW week 2 (BOW week 3 specifies table implements and table setting). the teacher consolidated week 1 and 2 fundational skills into week 3 before advancing to actual table setting.

:Learning Objectives *Write the smaller knowledge, skills, or tasks from the competency that the learners will work on and be able to show by the end of the sessions*	Learning Domains	LEARNING SESSION 1	LEARNING SESSION 2	LEARNING SESSION 3	LEARNING SESSION 4	LEARNING SESSION 5
	COGNITIVE	Identify and explain the duties and responsibilities of food service attendants. Discuss the importance of interpersonal and intrapersonal skills in food service operations.	Explain the importance of customer service and its impact on customer satisfaction and business success. Discuss proper handling of customer complaints.	Explain the importance of Occupational Health and Safety (OHS) Standards and identify common workplace hazards found in food service establishments.	Identify and explain the different preparations needed in the service area, including cleanliness, orderliness, proper arrangement, ambiance, and readiness of dining facilities and equipment.	Explain the importance of properly preparing and maintaining the service area before and during food service operations.
	PSYCHOMOTOR	Demonstrate professional grooming, communication, and work ethics expected of food attendants through activities and role-play.	Apply customer service skills in simulated restaurant situations and demonstrate proper handling of customer concerns.	Demonstrate safe workplace practices and proper responses to hazards through group activities and problem-solving tasks.	Demonstrate proper preparation and organization of the service area by applying appropriate cleanliness, orderliness, and readiness procedures.	Assess the readiness of a service area using a service-area preparation checklist and recommend appropriate improvements.
	AFFECTIVE	Appreciate the qualities, skills, and attitudes required of a successful food service attendant.	Value customer satisfaction, courtesy, and professionalism as essential elements of food service operations.	Develop a sense of responsibility for maintaining workplace health and safety.	Recognize the importance of maintaining a clean, orderly, comfortable, and well-prepared service area in providing quality food service.	Demonstrate responsibility and appreciation for maintaining a clean, orderly, and service-ready work area.
:Learner Context *.Write your observations of your learners and how they have been performing or responding to learning experiences recently. Include strengths, interests, and possible barriers to learning*		Learners have observed food attendants in restaurants and food establishments but may have limited knowledge of their responsibilities and required competencies.	Learners have experienced different forms of customer service but may not fully understand the importance of quality service in business success.	Learners are familiar with safety rules at home and school but may not yet understand workplace safety requirements in food service establishments.	Learners have experienced dining in restaurants, cafés, and cafeterias but may not yet recognize the different preparations needed to ensure that a service area is clean, orderly, comfortable, and ready for customers.	Learners have learned the basic preparations required in a service area and are ready to apply their knowledge by examining an actual or simulated service area and identifying areas that need improvement.
LEARNING EXPERIENCE		.A learning experience is like a thoughtfully designed journey. Each activity and interaction builds towards meaningful understanding and growth Identify activities and interactions to help learners gain knowledge, skills, or understanding in a purposeful way Create a career pathway chart, infographic, or reflection output related to food industry careers.				

Learning session 1: Cognitive and affective objectives on food attendant duties and interpersonal skills align directly with the personal reflection activity assessing self-awareness and professional qualities.

Learning session 2: Psychomotor and cognitive goals align with the collaborative problem-solving approach where learners analyze scenarios and execute role-playing to address customer concerns.

Learning session 3: The objective of identifying hazards and understanding safety rules is supported by hazard identification charts, safety protocols.

Learning session 4 and 5: Displays a logical pedagogical sequence; session 4 focuses on guided identification and visual analysis while session 5 moves to psychomotor application through simulated service area inspections using a structured checklist.

Pre-Lesson *Describe how you will help the learners get ready for the lesson*	Learners recall front of the house and back of the house personnel through a word arrangement activity.	Learners share good and bad customer service experiences encountered in restaurants and food establishments.	Learners discuss situations where accidents may occur in food service operations and identify possible hazards.	Learners recall their observations of restaurants, cafés, and cafeterias and identify what they notice before customers are served, such as cleanliness, arrangement of tables and chairs, availability of service materials, and overall readiness of the service area.	Learners recall the preparations needed before opening a food service area and identify the characteristics of a clean, organized, and service-ready area.
Flow: *Describe activities that you can implement in 1 or more sessions to meet the learning objectives?* *What can I do to:* *• make the objectives clear for the learners?* *•guide learners before letting them try the task on their own?* *• check the state of the learners' well-being, understanding, and mastery over the lesson?* *•connect today's new concepts to past competencies?* *• encourage collaboration among learners?* *• invite learners to reflect on why these matters to them?* *• ensure inclusion for learners' varied abilities, learning styles, and contexts?*	• The lesson begins with a discussion of the duties and responsibilities of food attendants. Learners examine the importance of customer communication, professional appearance, technical skills, teamwork, and workplace professionalism. The teacher discusses the concepts of intrapersonal and interpersonal skills such as self-awareness, self-regulation, adaptability, communication, patience, professionalism, teamwork, and empathy. Learners complete a personal reflection activity identifying their strengths, weaknesses, and areas for improvement as future food service personnel.	• The lesson begins with learners sharing memorable customer service experiences. The teacher discusses the importance of customer service, customer satisfaction, customer loyalty, positive brand image, revenue generation, and customer retention. Learners analyze customer complaint scenarios and propose appropriate solutions following acceptable customer service practices. Group discussions and presentations allow learners to demonstrate customer service competencies.	• The teacher introduces Occupational Health and Safety Standards and explains their role in preventing accidents and maintaining a safe workplace. Learners discuss different types of hazards including physical, chemical, biological, ergonomic, psychosocial, and mechanical hazards. Through collaborative activities, learners identify hazards, recommend preventive measures, and explain how safety procedures support employee welfare and workplace productivity.	• The teacher introduces the preparation of the service area and discusses the importance of cleanliness, orderliness, proper arrangement, comfort, ambiance, and readiness before serving customers. Learners examine the different preparations needed in the service area, including cleaning and arranging tables and chairs, preparing service stations, checking equipment and materials, and ensuring that the dining area is clean, organized, and ready for service. Through a guided activity, learners identify whether a given service area is properly prepared and explain what needs to be improved.	• The teacher reviews the essential preparations of the service area. Learners are given an actual or simulated dining/service area to inspect using a service-area preparation checklist. In groups, learners check the cleanliness, arrangement, availability of service materials, condition of tables and chairs, organization of service stations, and overall readiness of the area. Learners record their observations and formulate practical recommendations for improvement. Each group presents its findings and explains how proper service-area preparation contributes to efficient and quality food service.
Learning Resources *List down the learning resources that will help you reach your objectives. Ensure that they are available and inclusive Include options and alternatives in case of emergencies*	PowerPoint Presentation, Activity Sheets, Reference Materials, Learning Activity Sheet No. 1, videos on food attendant responsibilities and customer service.	Customer service scenarios, activity sheets, multimedia resources, role-playing materials, Learning Activity Sheet No. 2.	OHS Standards materials, workplace safety videos, hazard identification charts, activity sheets, Learning Activity Sheet No. 2.	PowerPoint Presentation, pictures/videos of properly and improperly prepared service areas, activity sheets, service-area preparation checklist, sample restaurant layouts, and available dining/service materials.	PowerPoint Presentation, Service-Area Preparation Checklist, Activity Sheet, Pictures or Video of Service-Area Setups, Sample Service-Area Layout, Observation Checklist, and available dining/service materials.
Opportunities for integration *Write down any possibilities to meaningfully another learning area special topic, or technology. Write N/A if none*	Values Education: Self-discipline, professionalism, honesty, responsibility, and positive work attitudes. English: Effective communication through verbal and non-verbal interactions. Career Education:	Values Education: Courtesy, empathy, respect, patience, and customer-centered service. English Communication: Use of appropriate communication techniques when handling customers and complaints. Entrepreneurship: Understanding	Science and Health: Workplace safety, hazard prevention, and health protection. TLE Integration: Application of Occupational Health and Safety Standards in food service operations. Values Education: Responsibility, discipline, and accountability in maintaining safe	Health Education: Importance of cleanliness, sanitation, and hygiene in preparing the service area. Arts and Design: Proper arrangement, ambiance, lighting, décor, and visual appeal of the service area.	Health Education: Apply proper cleanliness, sanitation, and hygiene practices in maintaining a service-ready area. Arts and Design: Apply principles of proper arrangement, ambiance,

Holistic interdisciplinary links; Effective integrate Values Education (hygiene, work ethics) English (customer communication), and SDG 8/12 (decent work and responsible management)

Multimodal Resources: Instruction utilize ICP presentation, demonstration videos workplace hazard charts, and sample dining layouts to simulate realistic dining environments

	Understanding qualifications and competencies required in food service occupations. SDG 8: Promotion of decent work and professional growth in the hospitality industry.	customer satisfaction as a key factor in business success and profitability. Career Education: Development of employability skills for future careers.	workplaces. SDG 8: Ensuring safe and secure working environments.	Values Education: Responsibility, discipline, cleanliness, and attention to detail. Career Education: Proper preparation and maintenance of the service area as an essential workplace skill.	lighting, décor, and visual appeal in evaluating the service area. Consumer Education: Assess the service area from the customer's perspective and recommend improvements that can enhance the dining experience. Values Education: Demonstrate responsibility, discipline, cleanliness, and attention to detail in preparing and maintaining the service area. SDG 12: Promote responsible and sustainable practices in maintaining and managing the service area.
Assessment	Assessments reveal what learners have gained and what they still need help with. These are helpful in providing you with information to guide your future instruction throughout the entire session				
:Formative Assessment *Create a task, activity or questions to evaluate learning and provide feedback every now and then. Include ways for learners to ask for guidance or support throughout each session* *Remember to provide appropriate accommodations so all learners can demonstrate their understanding (e.g varied response formats, small group options, visual or auditory supports*	• Learners participate in discussions regarding the duties and responsibilities of food attendants. They identify desirable and undesirable work practices and explain their effects on service quality. Learners complete an activity reflecting their interpersonal and intrapersonal strengths and weaknesses and present ways to improve their personal qualities. Teacher assesses participation, understanding, self-awareness, and application of concepts.	• Learners participate in discussions about customer service experiences and analyze situations involving customer concerns and complaints. Through group activities and role-playing, learners demonstrate customer service principles and proper complaint handling techniques. Teacher evaluates communication skills, problem-solving abilities, participation, and understanding of customer service concepts.	• Learners identify workplace hazards and explain the importance of Occupational Health and Safety Standards. Through collaborative activities and case analyses, learners recommend solutions to workplace safety concerns. Group presentations and discussions are assessed based on understanding, participation, teamwork, and application of safety principles.	• Learners identify the preparations needed in a service area and explain their importance. Using pictures or a sample service-area setup, learners identify areas that require cleaning, organizing, arranging, or replenishing. The teacher assesses learners' understanding through questioning, activity sheets, and observation of their participation.	• Learners use a service-area preparation checklist to assess an actual or simulated service area. They identify areas that meet the required preparation standards and areas that need improvement. Learners formulate and present recommendations. The teacher assesses the accuracy of their observations, appropriate application of service-area preparation procedures, teamwork, and practicality of recommendations.
Ways Forward	.Meaningful learning can also happen beyond the classroom – for both the learners and the teacher. Pause and reflect on what happened today				
:Extended learning opportunities *Suggest other learning experiences outside the classroom/class hours that learners may want to access to reinforce what they have learned, to spark their curiosities further, or that may provide them support in their areas of difficulty*	• Learners may observe food attendants in local restaurants and identify professional qualities demonstrated during service.	• Learners may interview restaurant staff regarding effective customer service practices and methods of handling customer complaints.	• Learners may observe safety practices in kitchens, cafeterias, or food-related businesses and identify workplace hazards and preventive measures.	• Learners may assess dining environments in various establishments and compare strengths, weaknesses, and areas for improvement.	• Learners may assess dining environments in various establishments and compare strengths, weaknesses, and areas for improvement.

→ Session 1-3 Assessment: Varied Assessment tools: combines self-assessment reflection sheets with rubrics for role-play and collaborative presentation, avoiding reliance solely on traditional written quizzes.

Session 4-5 Assessment:
criterion-referenced assessment:
Using the service area preparation checklist provides an objective, industry-aligned evaluation directly targeting the performance standard.

:Reflections *Think about what you need to change for the next session based on what happened today. Is there something the learners are ?interested in exploring* *Are there some things you would like to share with your co-teachers, parents, or school leaders about your classroom experience? What would you like your ?instructional coach to help you with*
