DAILY LESSON PLAN

Lesson Title	Alcoholic and Non-Alcoholic Beverages (Focus on Non-Alcoholic Classifications)
Learning Area/s	TLE-FCS Food Service
Name of Student Teacher/s	John Brix G. Coronejo
Name of Cooperating Teacher	Cristy S. Conopio
Grade Level and Section	Grade 10 – ATHURIUM / ASTER
No. of Sessions	1
References *Books, websites, toolkits, etc.*	DepEd MATATAG Lesson Exemplar for TLE-FCS Food Service Grade 9/10 Quarter 2/4 Lesson 1 (Day 1); DepEd MATATAG Curriculum Guide for TLE – Food Service; Budget of Work for Grade 10 – TLE: FCS – Food Service; Nawon Food and Beverage (2024), Types of drink: Explore the differences between types of beverages; Castro, Lorena A. (2016), A Module In Food And Beverage Service III, PNU-ITL.
Declaration of AI use *Cite how AI was used in the formulation of the lesson plan. See DO3. 2. 2026 Annex A*	AI was used to organize the DLP structure, align objectives with the MATATAG Lesson Exemplar, improve wording, and suggest integration opportunities. The teacher reviewed and validated all content before use.

Intentions

Meaningful learning experiences are anchored in how we frame them. Start by deciding what you want learners to master by the end of the lesson – keep it clear and simple.
Remember: Understanding your learner's evolving context and designing around it ensure that your lessons connect with and are relevant to them.

Learning Competency and Curriculum Standards: *Write the competency/ies from the curriculum that we are targeting, and the content or performance standards applicable to the sessions*	**Learning Competency:** • Differentiate alcoholic and non-alcoholic beverages. **Content Standards:** The learners should have knowledge and understanding of: • Demonstrate an understanding of the concepts and principles of alcoholic and non-alcoholic beverages. **Performance Standards:** By the end of the term, the learners are able to:

	• The learners create non-alcoholic beverages following the safety precautions that can be used in generating business ideas.
Learning Objectives: *Write the smaller knowledge, skills, or tasks from the competency that the learners will work on and be able to show by the end of the sessions.*	• **Knowledge:** Define beverage; distinguish between alcoholic and non-alcoholic drinks; and explain the three classifications of non-alcoholic beverages (Stimulating, Refreshing, Nourishing). • **Skill:** Accurately classify various common drinks into their proper non-alcoholic beverage category during interactive decoding and collaborative game-based showdowns. • **Attitude:** Express the value of healthy choices, responsible consumption (SDG 12), and legal/ethical compliance regarding alcohol restrictions for minors.
Learner Context: *Write your observations of your learners, and how they have been performing or responding to learning experiences recently. Include strengths, interests, and possible barriers to learning.*	Learners are familiar with common drinks consumed at home, school, or retail stores (such as sodas, bottled tea, juices, and coffee) and have observed adult drinks during family gatherings or local celebrations. They easily connect with modern café culture, social media drink trends (e.g., milk tea, iced coffees, smoothies), and roleplay scenarios. To overcome occasional hesitation or passive listening, lessons require interactive call-and-response dynamics, peer collaboration, and structured gamification.

Learning Experience	Learning experience is like a thoughtfully designed journey. Each activity and intersection builds towards meaningful understanding and growth. Identify activities and interactions to help learners gain knowledge, skills, or understanding in a purposeful and coherent way.	
	TEACHER'S ACTIVITY	**STUDENT'S ACTIVITY**
Pre-Lesson: *Describe how you will help the learner get ready for the lesson.*	**1. Routine & Prayer** "Good morning, Grade 10 Anthurium/Aster! To start our day and invite divine guidance, let us all stand for our opening prayer. Please lead the prayer." *(Classroom Management)* "Before taking your seats, please pick up any trash under your chairs, arrange your seats properly, and check your posture."	*(All students stand reverently)* "In the name of the Father, and of the Son, and of the Holy Spirit. Amen... Our Father... Amen." *(Students tidy up their area, pick up wrappers, and align their desks properly before sitting down.)*

	The teacher checks attendance: "Class secretary, who is absent today?"	The class secretary stands: "Good morning, Sir. There are no absentees today; everyone is present."
	2. Classroom Rules Reminder "Let us briefly review our four classroom rules for today's learning journey: 1. Respect each other. 2. Listen actively when others are talking. 3. Raise your hand to speak. 4. Stay engaged and do your best. Can I expect 100% compliance from Grade 10 Anthurium?"	"Yes, Sir! We are ready!"
	3. Short Review: Reset the Set! "Yesterday, we tackled dining room reset procedures. Who can recall the first thing we do once the guests leave the dining area?"	*(A student raises their hand)* "Sir, once the guests leave, we immediately clear the soiled tableware from the table!"
	Teacher Feedback: "Spot on! Then we change linens neatly and set up the clean cover for the incoming guests."	*(Students nod and take notes)*
	Establishing Lesson Purpose **1. Motivation: "Pic-Decode: Guess the Drink!"**	

	"Today, let us play a quick game called **Pic-Decode: Guess the Drink!** I will flash scrambled letters and pictures on the screen. Raise your hand if you can unscramble the word!"	
	Slide shows: Image of hot/iced coffee and scrambled letters 'EEFF CO'	*(Students raise hands enthusiastically)*
	"First drink, what do we have?"	
	Slide reveals: COFFEE	"Sir, that is **COFFEE**!"
	Slide shows: Soda bottles/cans and scrambled letters 'ODSA	*(Student raises hand)*
	"Next one!"	
	Slide reveals: SODA	"**SODA**, Sir!"
	Slide shows: Milk carton/glass and scrambled letters 'KLIM'	*(Student raises hand)*
	"Third drink!"	"Sir, **MILK**!"
	Slide reveals: MILK	
	Slide shows: Colorful mocktail drinks and scrambled letters 'KCOMTALI'	*(Student raises hand)*
	"And the last one?"	
	Slide reveals: MOCKTAIL	"That is a **MOCKTAIL**, Sir!"
	2. Guiding Question	
	"Look closely at Coffee, Soda, Milk, and Mocktail. What common characteristic unites all four of these beverages?"	*(Student raises hand)*

	"Excellent! That brings us to our lesson topic: **Non-Alcoholic Beverages and their Classifications**."	"Sir, none of them contain alcohol! They are all non-alcoholic drinks!"
Lesson Flow: *Describe the activities that you can implement in 1 or more session to meet your intentions.* Apply the Learning Design Principles, use the prompts below as a guide. Note, not all principles are expected in every lesson. • *Make the objectives clear for the learners* • *Guide learners before letting them try the task on their own* • *Check the state of the learners' well-being, understanding, and mastery over the lesson* • *Connect today's new concepts to past competencies* • *Encourage collaboration among learners* • *Invite learners to reflect on why this matter to them* • *Ensure inclusion for learners' varied abilities, learning styles, and contexts*	**1. Concept Definition** "Let's define our core term: What is a **Beverage**? A beverage is any liquid meant for human consumption. Beyond quenching thirst, drinks hold deep cultural and social significance in human history." "Broadly, beverages are divided into two main categories: 1. **Alcoholic Beverages** 2. **Non-Alcoholic Beverages**" "Who can read the definition of Alcoholic Beverage from the slide?" "Thank you! Alcoholic beverages contain ethanol, created through fermentation of sugars, and ethanol acts as a depressant psychoactive drug. In contrast, what is a **Non-Alcoholic Beverage**?" "Exactly. Non-alcoholic drinks have minimal to zero alcohol and are crafted for refreshment, hydration, or nourishment. While alcoholic drinks are classified into fermented (like wine and beer) and distilled spirits (like rum, vodka, whiskey), non-alcoholic drinks have three primary classifications: • Stimulating • Refreshing	*(Students listen and write notes in their notebook)* *(Student stands and reads)* "An alcoholic beverage is a drink comprising ethanol, a form of alcohol created through the fermentation of grains, fruits, or other sugar sources. Ethanol falls under depressants." *(Another student raises hand)* "Sir, a non-alcoholic beverage is a drink with minimal to zero alcohol content, intentionally made alcohol-free for everyone to consume safely."

	• Nourishing" **2. The 3 Classifications of Non-Alcoholic Beverages** **a. Stimulating Beverages** "What does it mean to stimulate? These drinks are consumed to stimulate mental and physical activities. Examples include: • **Coffee:** Rich in caffeine, made from Arabica (aromatic, milder) or Robusta beans. • **Tea:** Made by steeping processed leaves—such as Green, Oolong, or Black tea. • **Herbal Infusions:** Steeping dried flowers, roots, or herbs in hot water." **b. Refreshing Beverages** "These are taken to replenish fluid loss due to perspiration and quench thirst. Examples include: • **Water:** Still, mineral, or aerated/carbonated—the most essential drink. • **Soft Drinks / Sodas:** Carbonated drinks infused with pressurized carbon dioxide gas. • **Mocktails:** Non-alcoholic replicas of cocktails blended with juices, sodas, and syrups." **c. Nourishing Beverages** "These beverages are consumed primarily to provide essential nutrients, proteins, and calories to the body. Examples include:	*(Student raises hand)* "Sir, like when we drink warm tea or coffee during cold mornings to stay awake and alert while studying!" "Sir, why is soda under refreshing instead of nourishing?" *(Teacher clarifies: "Because soft drinks contain mostly sugar and carbonated water designed to give a fizzy sensation and replace fluids temporarily, offering little to no essential nutrients or proteins.")*

	• **Milk and Dairy Alternatives:** Cow's milk, almond milk, soy milk. • **Fresh Juices & Smoothies:** Pureed fruits, vegetables, or yogurt shakes. • **Chocolate drinks:** Hot cocoa or malted milk drinks." **Interactive Class Activity: "Raise That Board: The Beverage Showdown!"** "Now, let us put your knowledge to the test! We will play **'Raise That Board: The Beverage Showdown!'** Rules: 1. The class is divided into 4 teams. 2. Each group has a Writer and a Board Raiser (roles rotate). 3. I will read a riddle. You must write TWO parts on your board: • **Line 1:** Name of the Drink • **Line 2:** Classification (Stimulating, Refreshing, Nourishing) 4. The first board raised high with both lines legible earns 2 points! Steal opportunities are given if incorrect. • **Round 1:** *'I am made from roasted Arabica or Robusta beans, served hot or iced, and taken in the morning to wake up your mind and body. What am I?'* *(Teacher awards 2 points)*	*(Student comments)* "Like a mango banana smoothie after working out!" *(Students quickly organize into their 4 groups, holding their mini whiteboards/markers)* *(Group 1 raises board first)* **Line 1: Coffee** **Line 2: Stimulating** *(Group 3 raises board first)*

	• **Round 2:** *'I am a sparkling, fizzy drink infused with pressurized carbon dioxide gas, often served cold with sweet cola or lemon flavors to beat the thirst. What am I?'* *(Teacher awards 2 points)*	**Line 1: Soda / Soft Drink** **Line 2: Refreshing** *(Group 2 raises board first)*
	• **Round 3:** *'I am a thick, nutritious blended beverage made by whirling fresh fruits like mangoes or bananas with dairy milk or yogurt in an electric blender. What am I?'* *(Teacher awards 2 points)*	**Line 1: Smoothie / Fruit Shake** **Line 2: Nourishing** *(Group 4 raises board first)*
	• **Round 4:** *'I am the most essential liquid on Earth with zero calories, consumed still, distilled, or mineral-infused to recover fluid lost from sweating. What am I?'* *(Teacher awards 2 points)*	**Line 1: Water / Mineral Water** **Line 2: Refreshing** *(Group 2 raises board first)*
	• **Round 5:** *'I am prepared by steeping processed Black, Oolong, or Green leaves in boiling water to produce an aromatic drink that enhances mental alertness. What am I?'* *(Teacher awards 2 points)* "Tallying points... Congratulations to Group 2 for leading the showdown! Round of applause to all groups!"	**Line 1: Tea (Green/Black/Oolong)** **Line 2: Stimulating** *(Students cheer and applaud)*
Learning Resources: *List down the learning resources that will help you reach your objectives. Ensure that they are available and inclusive.*	• Slide deck presentation (*Alcoholic_and_Non-Alcoholic_Beverages.pptx.pdf*) displayed via projector/flat screen monitor.	

Include options and alternatives in case of emergencies.	• Bond paper, half folder and markers for the 4 game groups. • *Alternative resource in case of power interruption:* Printed laminated picture flashcards and whiteboard marker.	
Opportunities for Integration and Contextualization: *Write down any possibilities to meaningfully connect to another learning area, special topic, local context, or technology. Write N/A if none.*	**Synthesis & Value Integration: "Connect the Dots** "Let's look at the bigger picture under **Connect the Dots**: "1. **Science Integration:** How does ethanol affect the human body compared to stimulating non-alcoholic drinks?" "2. **SDG 12 (Responsible Consumption):** Why is it vital to choose non-alcoholic drinks and practice moderation?" "3. **Law & Philippine Culture:** Why are food and beverage establishments strictly prohibited from serving alcoholic beverages to minors in the Philippines?"	*(Student raises hand)* "Sir! Non-alcoholic stimulants like coffee stimulate our brain, while ethanol in alcoholic beverages acts as a depressant that slows down the central nervous system." *(Student raises hand)* "It protects our body from lifestyle diseases and prevents substance misuse, helping us live healthier." *(Student raises hand)* "Because minors' bodies and brains are still developing, alcohol causes physical and cognitive harm, and the law protects young people from intoxication, accidents, and violence."

Assessing Learning

Assessments reveal what learners have gained and what they still need help with. These are helpful in providing you with information to guide your future instruction throughout the entire session.

	TEACHER'S ACTIVITY	STUDENT'S ACTIVITY
Formative Assessment: *Create a task, activity or questions to assess learning and provide*	**Formative Assessment: Quick Quiz**	

feedback every now and then. Include ways for learners to ask for guidance or support throughout each session. *Remember to provide appropriate accommodation so all learners can demonstrate their understanding (e.g. varied response formats, small group options, visual or auditory supports).*	"Please get a 1/4 sheet of paper. We will have a 10-item Quick Quiz. Read each statement carefully and choose your answer from the box below. Write only the letter of your corresponding answer." **Choices Box:** A. Tea / Herbal Infusion B. Stimulating Beverage C. Aerated Beverage D. Alcoholic Beverage E. Refreshing Beverage F. Nourishing Beverage G. Beverage H. Alcohol by Volume (ABV) I. Mocktail J. Non-Alcoholic Beverage **Questions:** 1. A class of non-alcoholic drinks consumed primarily to quench thirst and replenish fluids lost due to perspiration. *(Ans: E)* **2.** The global metric indicating the volume of pure alcohol in 100 mL of liquid at 20 degrees Celsius. *(Ans: H)* **3.** A non-alcoholic beverage infused with carbon dioxide gas under pressure to produce fizz and effervescence. *(Ans: C)* **4.** A drink comprising ethanol created through fermentation, functioning as a depressant. *(Ans: D)* **5.** A category of non-alcoholic drinks taken to invigorate the body and boost mental and physical activity. *(Ans: B)*	(Students bring out their quiz papers and write their names, section, and date) *(Students silently answer each question on their quiz paper)*

	6. A hot or cold beverage produced by steeping processed leaves (green, black, oolong) in hot water. *(Ans: A)* **7.** A drink formulated with minimal to zero alcohol content designed for alcohol-free consumption. *(Ans: J)* **8.** Beverages consumed to supply essential vitamins, minerals, proteins, and nutritional value. *(Ans: F)* **9.** Any liquid meant for human consumption that quenches thirst and plays important cultural roles. *(Ans: G)* **10.** A non-alcoholic replica or alternative to a cocktail, typically crafted using fruit juices, syrups, and sodas. *(Ans: I)* "Pass your papers to the center aisle, and forward in 5, 4, 3, 2, 1."	(Students promptly pass papers to the front)

Ways Forward

Meaningful learning can also happen beyond the classroom – for both the learners and the teacher. Pause and reflect on what happened today.

	TEACHER'S ACTIVITY	STUDENT'S ACTIVITY
Extended Learning Opportunities: *Suggest other learning experiences outside the classroom/class hours that learners may want to access to reinforce what they have learned, to spark their curiosities further, or that may provide them support in their areas of difficulty.*	**Extended Learning Opportunities (Homework / Take It Home):** "For your homework, please copy our **'Be The Barista: Signature Drink Card'** project: **Task Scenario:** Imagine you are a professional barista or menu designer tasked	

	with creating a brand-new, healthy non-alcoholic signature drink for your café or restaurant. **Instructions:** 1. **Choose a Classification:** Select one (Stimulating, Refreshing, or Nourishing). 2. **Name Your Drink:** Create an original, catchy name. 3. **Key Ingredients & Proportions:** List 3 to 5 ingredients with measurements. 4. **Preparation Method:** Write 1 to 2 clear sentences explaining how it is prepared (stirred, blended, steeped, shaken). 5. **Health/Benefit Pitch:** Write a 2-sentence pitch explaining why guests should order it (nutritional value, hydration, wellness). Submit your outputs on a short bond paper next meeting."	(Students write the assignment details in their notebooks or take photos of the slide instructions) "Understood, Sir! Goodbye and thank you, Sir Brix!"
Reflections: *Think about what you need to change for the next session based on what happened today. Is there something the learners are interested in exploring?* *Are there some things you would like to share with your co-teachers, parents, or school leaders about your classroom experience? What would you like your instructional coach to help you with?*		

Reflections may be written in brief notes, bullets, or annotations.
